

Stainless Steel Split Lock Washer

- Split Lock Washers are coiled split circular washers with trapezoidal wire sections.
- Split Lock Washers are used to provide greater bolt tension and resist loosening caused by vibration and corrosion.
- Manufactured from Type 304 Stainless Steel.

| PART NUMBER | SIZE | STD PKG |
|-------------|-------|---------|
| 5301 | #8 | 100 |
| 5302 | #10 | 100 |
| 5303 | 1/4" | 100 |
| 5304 | 5/16" | 100 |
| 5305 | 3/8" | 100 |
| 5306 | 1/2" | 100 |
| 5307 | 5/8" | 100 |
| 5308 | 3/4" | 100 |
| 5309 | 7/8" | 100 |
| 5310 | 1" | 100 |

Type 316 Stainless Steel Split Lock Washer

- Split Lock Washers are coiled split circular washers with trapezoidal wire sections.
- Split Lock Washers are used to provide greater bolt tension and resist loosening caused by vibration and corrosion.
- 316 Stainless Steel is significantly more weather-resistant than 300 series Stainless Steel.
- Manufactured from Type 316 Stainless Steel.

| PART NUMBER | SIZE | STD PKG |
|-------------|-------|---------|
