

Spade Bit

- Intended for power drill use only, the centre point locates the bit and the flat steel on either side cuts away the timber.
- These bits are used to drill fairly large holes and they provide a flat bottomed hole (with a central point). They are ideal where the head of a screw/bolt needs to be recessed into the timber - always use this bit before drilling the clearance hole for the bolt.
- Hex shank prevents bit from slipping in chuck.
- Full length of bit is heat-treated.
- Larger bits require a fairly powerful drill to bore deep holes.
- Flat wood bits are not really suitable for enlarging an existing hole.

| PART NUMBER | DIAMETER | LENGTH | STD PKG |
|-------------|----------|--------|---------|
| 69750 | 1/4" | 6" | 1 |
| 69751 | 5/16" | 6" | 1 |
| 69752 | 3/8" | 6" | 1 |
| 69753 | 1/2" | 6" | 1 |
| 69754 | 9/16" | 6" | 1 |
| 69755 | 5/8" | 6" | 1 |
| 69756 | 11/16" | 6" | 1 |
| 69757 | 3/4" | 6" | 1 |
| 69758 | 13/16" | 6" | 1 |
| 69759 | 7/8" | 6" | 1 |
| 69760 | 15/16" | 6" | 1 |
| 69761 | 1" | 6" | 1 |
| 69762 | 1 1/8" | 6" | 1 |
| 69763 | 1 1/4" | 6" | 1 |
| 69764 | 1 3/8" | 6" | 1 |
| 69765 | 1 1/2" | 16" | 1 |
| 69766 | 3/8" | 16" | 1 |
| 69767 | 1/2" | 16" | 1 |
| 69768 | 5/8" | 16" | 1 |
| 69769 | 11/16" | 16" | 1 |
| 69770 | 3/4" | 16" | 1 |
| 69771 | 7/8" | 16" | 1 |
| 69772 | 1" | 16" | 1 |
| 69773 | 1 1/8" | 16" | 1 |
| 69774 | 1 3/8" | 16" | 1 |

Extension for Auger Bit

- Provides added length for Auger Bits.
- Hex wrench and two set screws included.
- Manufactured in the United States.

| PART NUMBER | SHANK DIAMETER | OVERALL LENGTH | HEAD DIAMETER | ACCEPTS BITS WITH HEX SHANK SIZE | STD PKG |
|-------------|----------------|----------------|---------------|----------------------------------|---------|
| 51300 | 5/16" | 18" | 5/8" | 5/16" to 11/32" | 1 |
| 51301 | 7/16" | 18" | 7/8" | 7/16" to 1/2" | 1 |
