

#2100

- Used to secure messengered drop wire to drive hooks, span clamps, and various house attachments.
- Offset curvature on clamp relieves strain on Support Wire.
- Cup washer is used to tie off Support Wire without providing any sharp bends or kinks.
- Formed from AISI 1018 Steel.
- Bail wire formed from 304 Stainless Steel.
- Bail length is 3-3/4".
- Floro-Carbon finish provides maximum corrosion resistance.
- Ideal for heavy loads. Accommodates Coaxial Drop Cable up to RG-11 Quad Shield.
